Subject: Study Commission

I just read today's Ravalli Republic regarding partisan elections for commissioners and am confused by the rationale of the three of you that voted to remove the option from the ballot as well as the people that called Sharon. The basic principle of democracy is that people VOTE and leaving the option of partisan or not on the ballot supports that principle. I strongly believe in Rush's statement about "low information" voters and that could be the motivation for you to remove the option from the ballot. It is a lot easier and less work to vote partisan than it is to actually study the candidate and understand their principles and positions. Alan and Scott, are you letting your personal views get in the way of what really is in the best interest of the citizens of the County? George and I disagree on many things but the quotes attributed to him in the paper are right on target. Think about the basic principles of democracy and do the right thing!!
