**Subject:** motorsports complex at RCFG

Honorable Commissioners,

I attended the meeting this morning regarding the Motorsports Park. I had planned to voice my opinion, which is for the park, but there was just too much emotion being displayed. So I am writing instead. Bottom line, in my opinion, the proposed Motorsports Park is a positive for the County residents as a whole. There will always be those that will oppose any conceivable plan. The majority of those opposed at the meeting were residents from the nearby neighborhoods. We need to remember, the Fairgrounds, the humane shelter, the County Yard, were all there before the subdivisions that these folks live in, and were probably put there primarily because there were no densely populated areas adjacent. I understand the concerns that those folks against have, but letting the few from the neighboring homes to decide what the entire county population can have or enjoy would be a disservice to the county as a whole. I am a business owner in the City and a County resident, near Pinesdale. I'd like to remind the Commissioners of the economic benefit to the city and county businesses that this would generate.

Again, I am for the Motorsports Park.
