Subject: Careful consideration of your Majority Votery

Hello and thank you for your time,

I am writing to add my voice to those who are opposed to the proposal to have stock car racing and a motor sports arena at the Fairgrounds. My home is located on Silverberry Street in the Arbors development to the South of the Fairgrounds and will be adversely affected by the constant noise, traffic and pollution. It will also effect the home value of a not yet finished development.

This event should be placed in a remote location and not within earshot of a residential area or a historical site (Marcus Daly Mansion). While the annual fair does attract large crowds and noise, it is a once a year event that appeals to most, if not all, of the local community, including almost all of the nearby yearly residents. The other events at the fairground are for the most part relatively small and quiet or of short duration. Car racing would be a wholly different type of event and one focused on a narrower segment of the community. Please recognize allowing such an activity in such close proximity to town isn't within the character Hamilton and would be against the majority of the population.

Again, Thank you for the careful consideration of your majority votery ,

Lance Turner
