Subject: RE: Thank You

Good Morning Commissioners,

I hope things are going well for you all and you're staying warm! It seems our winter temperatures have certainly hit. I guess it is the middle of November and so we should be ready for it by now!

I am reaching out to see if you had any questions regarding our proposal, if you needed additional information from us or further clarification. Please let us know as we'd be more than happy to assist in any way we can.

With that being said, if you'd like us to take a look at the Lync cutover plan to see if it is feasible – we would be happy to do so as well. As we've mentioned previously, we are a Dell Preferred Partner and were awarded their 2015 "Tell Dell Partner of the Year" in September. We have experience with Lync as it is the system all of Morrison-Maierle uses.

Please let us know if you need anything as we do look forward to the opportunity to work with you all.

Warmly,
Julie

P.S. Here is a picture of Shaun Brown, Director of Operations, receiving our award in September:

Subject: Thank You

Dear Commissioners,

I want to thank you for your time and questions this morning regarding the options that we presented to you for managing your IT network and devices. I hope we were able to help give you some ideas on what would be best for Ravalli County going forward. There is a lot of information in the binders that we gave you this morning, so please reach out to Mike or me if you have any more questions. We would rather you ask as many questions as you want to make sure you have a clear and concise understanding of what we are proposing.

I've also included our partners for Counties as well as Cities and Towns in Montana. We provide various levels of service to these entities.

Again, thank you for your time this morning. We are looking forward to the opportunity to work with you all as well as Ravalli County as a whole.

Warmly,
Julie
