**Attachments:** Collaboration group

Mr. Lawrence,

I do not think responding to your attacks on the collaborative efforts would be productive, so I will just agree to disagree with your misunderstanding about the collaborative, the benefits and the recognition of collaborative efforts by the Forest Service.

The statement that the commission is unwilling to listen to citizens and develop a growth policy (when the growth policy was repealed by a vote of the people) is an interesting one.

Thanks!

Jeff

Glenda,

I have attached a letter to the commissioners regarding the proposed collaboration group. Could you please see that they each get a copy of it?

Thanks!

Russ
