Subject: Headwaters Health Foundation Meeting

Greetings,

I would like to extend a unique invitation to all of you. On May 2, Ravalli County Public Health will be meeting with the CEO of Headwaters Health Foundation, to discuss Ravalli County's main/largest health issues. I see this as a collaborative meeting because of the multiple health disparities this county has.

In 2015, the proceeds from the sale of Community Medical Center to Billings Clinic Regional Care created Headwaters Health Foundation. This foundation is located in Missoula but will serve all of Western Montana Region, focusing on underserved communities and Native American population. Headwaters Foundation is beginning an extensive strategic planning process and they need input from all jurisdictions in Western MT to help determine what they will focus their efforts on.

Come join us for this discussion regarding our community's needs. If you know of any other community participant that you believe would play a vital role in this discussion, please pass this on accordingly. If you have any questions or concerns please feel free to email me or call at the number below.

Date: May 2, 2017

Time: 10-2pm

Location: Ravalli County Public Health

205 Bedford Street Suite L Hamilton, Mt

Please RSVP

Thank you and hope to see you there,

Angelia Spooner BSN,RN
Director, Ravalli County Public Health
