Dear Sirs,

As you are well aware, I am the owner of the land north of the airport. In an effort to keep the heritage of the historic Stock Farm intact, I have made the final decision not to sell the land necessary for the large expansion of the airport. We are in favor of lengthening the runway and making it safer but not in the present 4-B configuration.

This decision is final and is in no way a negotiating tactic. The land is not for sale, period. Please do not approve any preacquisition activities e.g. surveyors, appraisers, etc. that would require access to my property. We will not allow appraisers or other such personnel on the property.

Sincerely,

Harold Mildenberger
