Suzy and Greg, Here is a link to the interview I mentioned today (JR/Jeff and Ron I am copying you as well.) In order to be most informed regarding the history I urge you to spend 10 minutes and listen to this. I appreciate your listening today and as I mentioned to Greg it is disappointing to hear the same misinformation again and again. Nancy Balance said (and Theresa Manzella agreed) that Montana send money to the Washington and gets nothing in return. That is not true. Montana receives far more (around 60% more as Greg agreed after the meeting) in federal aid than the citizens of the state pay in taxes. Those people in places like Chicago and California that were so vilified by some today might more appropriately be thanked for helping subsidize Montana infrastructure and programs through many federal programs.

Take a look at the Great Seal of the United States: above the eagle's head the scroll says E pluribus unum (out of many one) that means out of many States one Union. These public lands are the birthright of ALL citizens of this great country – we owe Teddy Roosevelt and many others a great thanks for ensuring that is true today and will be in the future.

Please take the time to listen and focus on those tasks that are clearly yours in managing the county and stop spending time in areas where you do not have expertise. Thanks for listening.
