Subject: Website Email - Taxes!

We might as well join the list, if you're keeping one, of people wanting to know if their taxes have been received. I mailed our tax payments the week before thanksgiving and not one check has cleared. I tried calling the tax office, but no response there. By the newspaper articles I am sure that you are aware of the problem.

Seems you should find a new person to head the department. Now you have an incompetent in charge of - is there anyone left?
