Subject: Ravalli County CivicPlus website functionality re roadwork zones

Dear Commissioners,

As discussed during the 10DEC2013 Ravalli County Road and Bridge Department (RCRBD) and Valley Flooring damage compensation meeting before the Board, Washington County, Minnesota has a CivicPlus website that does an excellent job of advising the public of their road department's maintenance activity. Such efforts on Ravalli County's CivicPlus website, scheduled for 06FEB2014 introduction, should provide an added layer of liability protection regarding damage claims associated with vehicles transiting county road maintenance zones.

Please direct the RCRBD to adopt public advisory features for the new Ravalli County CivicPlus website as seen on the following site: <http://mn-washingtoncounty.civicplus.com/index.aspx?NID=1963&ART=3809&ADMIN=1>

This Washington County site informs their citizens of local government activity with a level of timeliness and specificity that I believe the citizens of Ravalli County deserve as well.

Sincerely,
Chris Hockman
