Subject: Assistance for the Treasurer's office

Dear Ravalli County Commissioners,

As a taxpayer and trustee with the Hamilton School board, I am alarmed at the apparent disarray in the County Treasurers office. I took the liberty of contacting the Montana State Department of Administration with my concerns by sending them links to current local newspaper articles. I received this reply from Kay Gray at that office. Please consider accepting their offer of assistance-

"Dear Ms. Gantt:

Your concerns are understandable. The Department of Administration would like to help if we can. The County is current on all required Department filings. We have no authority to force our assistance on the County but if asked by the County we would be happy to help with training.

If you have not yet discussed your concerns with the County commissioners, that might be a good idea. The commissioners are responsible for the management of the County.

Please contact me if you have additional questions or concerns.

Kay Gray, CPA
Bureau Chief
Local Government Services
Montana Department of Administration"

Sincerely,

Corrine Gantt
