This letter is to clear up a few things about my request for a copy of the complaint against me by the Ravalli Co. weed board.

It has come to my attention that I threatened or made threats against someone.

I was only around Kelliam Morris three times. The first two times her assistant was with her. The third time was at airport road when I dropped off a paper and there was a young man in the immediate area so I never once was alone with her.

I asked her several times for a copy, the 1st time she said I could come up and look around, the second time she said no and the third she said its about weeds and no people, then I said I have people working on it to get me a copy and she said go for it!

She paid a lot of taxes to Ravalli Co. over the years and that should account for something. My suggestion is that me, Kelliam and her assistant take a polygraph and clear this up. All I want is a copy of the complaint with nothing blanked out.

Thank you

Glenard Plau
