Subject: Ravalli County Public Display Policy- 2018

I request that the Commissioners adopt a policy on public displays consistent with local, state, and federal law, other policies and procedures. There are Christmas displays and I believe that similarly situated groups and persons are entitled to identical display rights without preference or exclusions. Apparently there is no policy at this time. I am investigating Missoula County, Missoula City, and other municipalities statewide to determine existing policies. I think such policies should be consistent statewide.

Please schedule my appearance on this matter at the first 2018 Board of Commissioners meeting. I should be able to offer a report by that time.

I reside in Ravalli County although my mailing address is Missoula Co.

Please notify me of the date and time at your earliest convenience and I may submit information and a proposed Rule, Policy, and / or Procedure in writing for consideration.
