Ravalli County Commissioners

--	--	--	--	--

Dear Commissioner Chilcott, Commissioner Burrows, Commissioner Hawk,  
Commissioner Schallenberger, and Commissioner Hoffman:

The Higgins-Treece Gulch Road Association came before you last year to discuss the possibility of forming a RSID so that we could replace a bridge for our association.

The association officers wanted to thank you for your time and attention and give you an update on our project.

As you can see by the pictures below, we were able to complete the bridge in December. The project took 6 ½ weeks and we didn't have any issues with detouring the travels of our members.

We had a great response from our members for payments and funded the remaining amount with a loan from Rocky Mountain Bank.

Our new bridge should last a long time and our members are happy having a wider and safer bridge than we had before.

Thank you again for your time. And thank you to Glenda for all of her help!

Sincerely,

Cathi Cook  
HTGRA Treasurer  
Stevensville, MT
