Subject: Treasurers Office needs an audit

As a citizen and tax payer of Ravalli County I am requesting that the Commissioners order a full forensic audit of the Treasurers Office of Ravalli County. It was reported that you were calling in a state auditor then that you had decided to hire additional people instead. It is a poor choice to decline to get the only help that will truly unearth the actual disfunction that is present in that office and to move forward with better process and procedures. You owe the tax payers of this county a well run, honest and fully functioning Treasurers Office complete with fully vetted employees. After all, they handle and process OUR money. Please order an audit of the office. It's YOUR responsibility

Sincerely,
Malissa Comerford
