Subject: MT DEQ Open Cut Mining, Air Quality, and MDT Road Approach Seminar in Sidney Montana on March 12, 2014
Attachments: SidneyMarch-12-2014Flyer.docx

What: Open Cut Mining Permitting, Gravel Pit Air Quality, and MDT Road Approach Seminar
When: March 12, 2014, 9am – 5pm
Where: Elks Lodge, Sidney, Montana

The Department of Environmental Quality's (DEQ) Small Business Environmental Assistance Program is hosting a daylong seminar designed to announce recent Open Cut mining legislation and permit application updates along with related air quality and MDT road approach permit requirements and guidance.

With a strong focus on communication, outreach and education, this seminar provides tips and practical guidance aimed at saving time and money when working with regulations and regulators. Let the knowledge and experience of DEQ and MDT's professionals assist you in better understanding roles and regulations!

- ❓ Open Cut Mining Permitting/Operations
- ❓ Air Quality Regulations
- ❓ MDT's Road Approach Requirements
- ❓ Small Business Environmental Assistance

Registration is simple! Call 800-433-8773, 406-444-6592, or email John Podolinsky at jpodolinsky@mt.gov and reserve your seat today!

This training series is free of charge! Seating is limited for this event! Register today!

*There are opportunities to sponsor the morning and afternoon breaks, as well as lunch. Please contact John if you are interested in sponsoring or co-sponsoring breaks and/or lunch! Opportunities to display your services exist as well, so contact John ASAP!

*Feel free to share this email message with others who might be involved with open cut mining, gravel pit operation, and road construction.

Thank you, hope to hear from you shortly and see you in Sidney!!
