Helpful Hints

- Document Alerts are NOT historical and will only be sent for documents recorded or modified after the alert is saved.
- Up to twenty fields can be added per alert. The more criteria you add, the less chance of receiving a false positive.
- Add separate alerts for names and/or properties.
- Alerts are sent on exact matches on ALL criteria entered per alert.
- Some Counties do not index Parcel information. Please check with the County to ensure they index this information before setting an alert.
- Add "notifications@idocmarket.tylerapp.com" to your trusted contacts so notification emails are not flagged as spam.
